up to 10 days

Medical Waste Permit \$175.00/annually

2. Eric Mueller & Elizabeth Durkee from Wind River came before the Board to discuss the Title V Inspector permits for several Wind River employees. The reports are being submitted incomplete. According to Eric & Elizabeth the inspectors have been retrained and will submit all reports completed correctly with the required information attached. The Board agreed to issue the Title V Inspector permits for 2018.
3. Septic Plans –
 - a. **437 High Street** – 4 Bedroom – Sieve – Mr. Amado made a motion to approve the submitted plan with the following variance:
 - i. To allow the use of a Sieve analysis in lieu of a standard perc test
2nd by Ms. Dias. Approved 2-0
 - b. **206 Holmes Street** – 3 Bedrooms – Sieve – Mr. Amado made a motion to approve the submitted plan with the following variance:
 - i. To allow the use of a Sieve analysis in lieu of a perc test due to high ground water.
2nd by Ms. Dias. Approved 2-0

**Minutes for
Town of Hanson
Board of Health Meeting
Tuesday, February 13, 2018**

- c. **325 Woodbine Avenue** – 3 Bedroom – Sieve – Mr. Amado made a motion to approve the submitted plan with the following variance:
- i. To allow the use of a Sieve analysis in lieu of a perc test to determine L.T.A.R.
- 2nd by Ms. Dias. Approved 2-0
- d. **270 High Street** – 6 Bedroom – Deed Restriction - Mr. Amado made a motion to approve the submitted plan with the following variances:
- i. To allow a minimum 3' separation to high groundwater will be maintained in soils with a perc rate of greater than 2 mpi. No increase in design flow is proposed or is to be allowed
 - ii. To allow a variance from the required 5' separation of the toe of the slope of a mounded system from a property line is requested, the toe of the slope of the system as proposed a 2' from the High Street Right of Way due to site restrictions related to the location of existing underground utilities. The proposed grading will not affect the existing flow of runoff on the site or within the High Street Right of Way.
 - iii. To allow placement and construction of tee's requiring 12" separation between inlet and outlet tees and high groundwater is requested. The proposed septic tank and pump chamber inlets and outlets are between 0.85' and 0.50' above the high groundwater, as determined by REDOX features in a test hole located within the proposed SAS.
- 2nd by Ms. Dias. Approved 2-0

II. Adjournment

Motion to adjourn meeting made by Mr. Amado, 2nd by Ms. Dias.
Meeting adjourned at 5:56pm.
