

HANSON BUSINESS COMMUNITY, HELP US HELP YOU!

ARE YOU A BUSINESS LOCATED IN THE SOUTH HANSON AREA SURROUNDING THE MBTA STATION? THEN WE NEED YOUR HELP.

The Town of Hanson is participating in the Massachusetts **Local Rapid Recovery Program (LRRP)** to help communities develop plans for targeted downtowns and commercial districts.

An initial component of this program includes a **survey of owners (or managers) of business establishments located in South Hanson Village** (near the MBTA station along Main Street from Elm to High Street) including for-profits and non-profits, and even if your business is temporarily closed.

The survey will ask a few questions about your satisfaction with your business location, impacts of COVID on your business and your opinion regarding potential strategies to support your business and improve the commercial district.

Your input will help develop a plan that meets the needs of local businesses and inform future policy decisions.

Please take a few minutes to tell us about your business and what would support your success!
